

MULTIPLEX BED SLATS

We manufacture wooden slats for bed frames, box-storage beds, and any kind of bed base. Slats are a crucial part of the support system for the mattress and therefore, to our well-being and comfort. They also allow the mattress to breath and extend the life of the entire bed

Slats are the pieces that need more flexibility, so it is important to know what type of wood are made of. Its design, whether it's straight or curved, will help to strengthen the areas of the bed frame that receive more body weight. In addition, there are special pieces, for headboards and footboards, that help the stability of the mattress, particularly with adjustable beds

NATURE SURFACE

- **Type of Wood:**
Steamed beech, poplar and others.
- **Surfaces:**
Glue (urea-formaldehyde)
Without glue
- **Type of slats:**
straight and curved
(radius: 4.500 m/m, 8.000 m/m).
- **Thickness:**
7, 8, 9 up to 15 m/m.
- **Width:**
25, 38, 50, 53, 60 up to 300 m/m.
- **Length:**
R-4500: from 400 up to 1.100 m/m.
R-8000: from 500 up to 1.600 m/m.
Straight: from 400 up to 2.000 m/m.
- **Pressure:**
25 Kg/cm².
- **Tooling radius:**
7, 5, 9 m/m.
