

MULTIPLEX SLATS WITH PAPER, POLYPROPYLENE AND LACQUERED

The key to a good rest lies in the ergonomics of the surface on which you lie. A fundamental part is the wooden slat on which the mattress rests. Its design, tooling, dimensions etc are the heritage of each manufacturer. Thus, we carry out exclusive designs of recognized brands with their own finish, fully customizing the design of the bed base. In addition, the selection of the finish of the slat can help with the fixation of the mattress to the bed frame, its cleaning and maintenance.

SURFACE WITH FOIL, POLYPROPYLENE AND LACQUER

- **Surfaces:**
1, 2, 3 or 4 faces with foil, polypropylene or lacquered.s.
